Mercury March 2019

FROM THE DESK OF THE MANAGER

Anytime you smell an odor of natural gas, please call PECO at 800-841-4141. Do not call the office, the resident must call PECO. There are questions they will ask that the office cannot answer.

If you have an item that you think may be handled by our Maintenance Department, please call it in. **DO NOT WAIT UNTIL IT IS OUT OF CONTROL!** This mindset costs the Association money that could have been avoided if the call made from the onset.

Make sure you are collecting your own recycle bin after it has been emptied by the Township. We have received several calls about missing recycle bins.

A Member reported to us that her door was dented while parked in her numbered spot with no notification left on her car. If you or someone visiting you has lost grip of their car door and hits a neighbor's door, please be kind enough to leave notice.

We have also received a couple of calls about kids knocking or ringing other Members doors/doorbells. Please be courteous to your neighbors and make sure your children know of the health risks / dangers of ring and run activity.

Each year, FHHOA looks for that dedicated person that wants and needs to get involved with the future of FHHOA. You could be one of those individuals

- Who are committed to sharing their time and talents to help make the community a better place
- Who have specialized skills and expertise that could benefit a nonprofit board's work
- Who are willing to be enthusiastic advocates for a community and encourage others to get involved

Serving on the Board is a wonderful way to support a cause that you care about. If you are interested in running for FHHOA's Board of Directors, please contact the office.

Also, we will be taking interested parties requests for our nominating committee from now until July 31, 2019. Three volunteers are needed to chair the nominating committee.

Remember: This is your community too. Get involved!

occupied. And our waiting list is a good size with 75 potential applicants!
